BRIEF LOCALS.

The Boston & Maine are thoroughly refitting the steamer, Lady of the Lake, at Magog and Capt. Bullock says the boat will be in service again about the first of July.

The St. Johnsbury House is a member of the hotel league of the United commercial travellers' union. This organization extends through the United States and Canada and only one hotel in a place is admitted to membership.

C. C. Bonett, the St. Johnsbury aeronaut, has ordered a new balloon and is now making engagements for next season. Mr. Bonett has contracted to appear at the fairs at South Ryegate and Topsham, where he gave successful exhibitions last fall. He uses a hot air balloon and descends in a parachute.

Harold E. Heath, the eight-year-old son of Mr. and Mrs. W. L. Heath was not born with a silver spoon in his mouth, but is using one every day that is about 100 years old. It is an heirloom and he represents the fifth generation that is using this spoon. Master Harold is also using a plate that is 50 years old that originally belonged to his great-grandmother.

SUCCESSFUL RELIGIOUS WORK.

Good news comes from West Chester, Penn., of the success of the labors of Rev. W. R. Laird, a former resident of St. Johnsbury. At the last communion in the First Presbyterian church, 43 new members were received, 38 of them coming by profession, and five by letter. Twenty-one of those making profession were baptized. This makes 183 received into this church since he became pastor a little more than two years ago, 131 coming by profession, and 52 by letter. This church has now between 450 and 500 members. The Sunday School in this church has 351 members. The CALEDONIAN congratulates the pastor upon the results of his work.

TRIAL FOR IMPEACHMENT.

The Adelphean society held a mock senate trial Saturday evening at Academy Hall to impeach President Cleveland upon the bond issue, Hawaiian question, Chicago strikes, etc. Many alleged discreditable acts, not previously made public, were disclosed which make it seem shaky for the president's welfare. Evidently the witnesses had been well coached

ed along certain lines, but when "President Cleveland" failed to tell the Senate when he was elected and the length of time he had served in his present office, and when "Mr. Debs" failed to give the length of his term of office and was rather uncertain about certain money affairs, etc., it seemed to the audience that "all things are not what they seem."

Chief Justice Rood presided with a dignity unprecedented and his rulings were impartial. The oath was varied to fit the requirements of each witness and created no little merriment, and was administered by Clerk Cameron. The lawyers successfully drew from each witness what he knew bearing on the case, while the sedate senators drank in the testimony. After the testimony was given, the lawyers' pleas rendered and the charge from the chief justice made, the senate brought in a verdict of acquittal as the evidence for the prosecution was not sufficient to convict.

The lawyers for the prosecution were John H. Cameron, James M. Cushman and Henry O'Malley; for the defence, Charles W. Johnson, Mr. Hazen and James P. Richardson; sergeant at arms, James Clark; page, John S. Ellis.

UNIVERSITY OF VERMONT.

The St. J. A. Club held its semi-annual meeting Saturday, March 9, and elected the following officers: Francis M. Atkinson, '95, president; Frank D. Thompson, '98, vice-president; Guy W. Felton, '97, secretary and treasurer; J. B. Kidder, '96, historian; Mabel A. Miles, '98, correspondent; Carl W. Fisher, '96, Edna M. Lucas, '97, and Ida Miles, '98, executive committee.

Frances Atkinson, '95, has been chosen to write the class essay for the class day exercises at commencement.

AN ARTISTIC JOB.

The CALEDONIAN has received from Ira C. Evans of Concord, N. H., a souvenir of the ball of the Concord Typographical Union, held at Concord Feb. 22. The souvenir is one of the handsomest jobs of the printer's art we have ever seen and it reflects great credit on Mr. Evans' office. Our readers will be pleased to know that the entire job was designed and printed by George H. Woods, a graduate of the CALEDONIAN office and a young man who is pleasantly remembered here by many. Mr. Woods has a good position in Mr. Evans' office and is bound to make a success of his position.

Blood is Life

And upon the purity and vitality of the blood depends the health of the whole system. The best blood purifier is

Hood's Sarsaparilla.

This is proved beyond any doubt by the wonderful cures which have been accomplished by this medicine. Weak, tired, nervous men and women tell of new strength and vigor and steady nerves given by Hood's Sarsaparilla. Sufferers from sleeplessness, scrofula, salt rheum and the severest forms of blood diseases have found relief in Hood's. This is because Hood's Sarsaparilla

Purifies the Blood

And Gives Good Health.

TO FIGHT AGAINST VICE.

It Takes Strong Nerves and Clear Brain These Days.

The Rev. I. P. Quimby of the Broadway Church Boston, Says it is His Duty to Recommend Paine's Celery Compound.

It Makes People Well.

Clergymen to-day need big hearts and sound nerves to accomplish all the good they intend.

It isn't merely the fact of preaching once a week that makes the life of a minister of to-day so wearing on nerves and brain. Their every day labor is a round of exacting duties that tax heavily their nervous strength.

The modern minister must keep up his enthusiasm, his hopefulness and his genuine love of his work. He must feel strongly, think deeply and have confidence in his labor and in himself.

But all this taxes heart and brain to their uttermost. It calls for a tremendous outlay of nervous energy seven days in the week and 365 every year. Many clergymen break down utterly under the nervous strain.

Rev. I. P. Quimby, the wellknown Boston preacher, has been saved from nervous prostration.

In a publication of his Sunday School he has recently published the following open letter:

Boston, Nov. 20, 1894.
Never in my life have I commended any proprietary medicine, but I would be derelict in duty if I failed to let the public know what a great boon to humanity I believe Paine's celery compound to be. With a family of seven, I have not paid a dollar for a doctor in ten years, and I owe it to the fact that I always keep Paine's celery compound on hand, and when any of us are "out of sorts," administer it.

Both wife and I, in our arduous church work, are often, by anxiety and overwork, reduced to the verge of nervous prostration, and as often by the use of Paine's celery compound, restored to our wonted energy of mind and vigor of body.

Our sons, who are young pharmacists, tell us they sell more of Paine's celery compound than any two proprietary medicines, not excepting the sarsaparillas.

Yours for Paine's celery compound, REV. I. P. QUIMBY,

Pastor of Broadway Church, Boston, Mass.

When the nervous strength has become from any cause impoverished, Paine's celery compound succeeds as nothing else has ever done.

From a state of depression, exhaustion and lifelessness the nerves grow strong, active, and perfectly nourished by means of Paine's celery compound, the great modern nerve and blood remedy that makes people well. And with the strengthening and regulating of the nerves the disorders that depend on the faulty nutrition of these tissues disappear. Such are rheumatism, neuralgia, heart weakness, headaches, low spirits, lack of strength, and that general poor health that is so impossible to define.

Sound nerves, healthy blood and an all round, vigorous constitution of the body is the invariable effect of taking Paine's celery compound. The great modern restorative corrects derangement of the nervous system, and averts prostration when protracted strain has reduced it to an exhausted, poorly fed, devitalized condition. Try it.

"IT'S A GOOD THING---

PUSH IT ALONG."

This laconicism has caught the popular fancy; it's a mighty apt expression, when stop to consider. We can imagine the thrifty business man, hieing himself home to his noon-day meal on a "hotter-n-blazes" day in July. He is tired and exhausted, but the new lawn mower has just been delivered, and he decides to "try it" before dinner. He drags it out. The machine rattles and quivers and shakes, and so does every nerve and muscle in his body, while visions of nervous prostration float before his eyes. In agonized despair, give the thing a vigorous push, but just then the handle bobs up and treats him to a hearty kick in the front of his neck, and—he stops. His precocious 7-year-old, who has been an interested spectator, rises to the emergency at this juncture and exclaims:—

"SAY, DAD, DAT'S A GOOD THING---

PUSH IT ALONG!"

Speaking of good things, now what's the matter with PULMOCURE. That is a good thing and deserves "pushing along." Even the pessimist, who sees everything through smoked glass, and who, so Puck says, looks upon sunshine as a thing that casts shadows, admits the superiority of this cough remedy.

Are you using it in your family? This is a good time to begin.
